## **Better Packages® New Tape Dispenser Ideal for Use in Assembly and Small Package Fastening**

**Shelton, CT, March 2005**

Better Packages—the number-one trusted name in water-activated tape dispensers and carton sealers for over 85 years—announces the introduction of the PS2A, a new electronic pressure-sensitive tape dispenser, perfect for operations that need to apply tab-type closures on small corrugated cartons, specialty boxes, envelopes or poly bags. The dispenser's ability to accommodate various widths of pressure-sensitive tape (from 0.25 inches to 2 inches), including masking tape, Scotch® tape and strapping tape, and its compact, tabletop design make the PS2A an ideal choice for a multitude of applications and environments. Textile factories, small assembly and subassembly operations, even delicatessens and pizzerias will welcome the user-friendly design and functionality.

A smooth, color-coded, programmable keypad allows the user to set and automatically dispense tape with the touch of a button in lengths up to 999 millimeters. Lengths can also be set in centimeters, depending upon user preference. The PS2A has an adjustable core that accepts rolls of tape with cores between 1 inch and 3 inches in diameter, eliminating the need for additional, costly accessories required with other electronic tape dispensers.

Other features include an easy-to-read LED display, heavy duty 5 foot electrical cord, replaceable fuse and cutter mechanism, manual override, and random-length and manual-cut keys. The PS2A is grounded for added user safety and comes standard with a one-year warranty on parts and labor.

Better Packages, based in Shelton, Connecticut, is the world's leading manufacturer of water-activated tape dispensers used for carton sealing. Its products are sold and serviced in the United States and in 20 countries worldwide. Its systems are used whenever security, strength, efficiency, productivity and a professional image are needed. Founded in 1917, the company has been headquartered in Shelton, Connecticut, since 1924. For more information, please visit [www.BetterPackages.com](http://www.BetterPackages.com).
